

Women Across Differences Placement Description

WAD is looking for persons to fill this placement. These are unpaid positions, however we would be happy to provide a reference, or provide an internship position in which university students can receive credit from their respected university. We also recognize that many professionals would prefer the word pro bono, as they are providing a professional service as a way to give back to people who could not normally afford their services.

Position Title: Communications Officer

Purpose: WAD would like to increase its visibility and promote the work that we do. Currently WAD has a volunteer working on communications. However, we will need someone to continue this work once they leave.

Key Responsibilities:

- Maintain WAD's website and social media presence
- Produce communication material on a needs basis
- Communicate to the media the work that WAD is doing
- Help the "Young Mothers for Change Group" and WAD Advocacy Committee effectively communicate their advocacy plan

Skills Needed: Currently studying, or has a degree in communications or a related field. Persons with no degree, but with relevant experience may also be able to fill this position.

If you are interested in this position please indicate on your application form or call the WAD office at 227-3974.
